

INTELLIA
— SOFTWARE SOLUTIONS —

Brief introduction

Intellia Software Solutions was founded in 2018, leveraging the extensive expertise of our founders and key staff, who possess over 10 years of experience in delivering governmental IT solutions.

Our key staff has experience in development and implementation state level information systems since 2007 when the first EHR (named “Medex”) was successfully implemented within EU/TACIS project „Public Health Reform” in Republic of Moldova.

We played a key role in dozens of projects of implementation e-governmental solutions in public healthcare, insurance, justice and business registration.

Our team is located in Republic of Moldova – country that adopted stimulating legal framework for IT companies and demonstrates significant evolution of CIT industry. Moldova Innovation Technology Park (<https://mitp.md>) - provides a special tax regime.

Intellia is member of Moldova IT Park since 2021.

Republic of Moldova is EU candidate, its governance focuses its efforts on harmonization with EU legislation, combating corruption, providing transparency and rule of law.

Our top management is closely involved in:

- USAID projects (one of the latest projects - Moldova Governance Threshold Country Program for Ministry of Justice of Moldova, Economic Courts Activity project for the Government of Egypt)
and
- EBRD projects (the latest projects - State Register of Legal Professions for Ministry of Justice of Republic of Moldova and Case Management System for Mediation Council for Ministry of Justice of Republic of Moldova),

We have successful experience working with Program “Women in business” of Organization for SME Sector Development of Government of Republic of Moldova (2020-2022).

Ecaterina Televca

Director and business owner.

Has MD and bachelor in IT degrees.

She played a key role in implementation state-level information systems (here are some examples of them):

- State Register of Legal Professions for Ministry of Justice of Republic of Moldova (EBRD project, 2023);
- Case Management System for Mediation Council for Ministry of Justice of Republic of Moldova (EBRD project, 2023);
- Electronic Health Record system (TeleRAWA) for National Health Insurance company of Belize (2020);
- Implementation of International classification of diseases (ICD-11) for National Health Insurance company of Belize (WHO project, 2020),
- Electronic Business Registry for Government of Somaliland (2016).
- Medical Insurance information system for National Health Insurance company of Belize (2013),
- Electronic Tax Invoices and Waybills system for Main Tax inspectorate of Republic of Moldova, 2013;
- Case Management System for Rep of Moldova (USAID project for Ministry of Justice, 2010),
- Electronic Health Records system "Medex" (EU/TACIS project, 2007);

In 2015 Mrs. Televca was awarded by Moldovan Association of ICT Companies for outstanding performance and valuable contribution to the ICT sector. During over 17 years Mrs. Televca played a key role in implementation dozens of software solutions in Eastern Europe, Africa and Caribbean. She is a driver of ideas for development Intellia EHR as a company product that may be deployed
